

EP DigiPlug Stationary Plug-In Protection

The **EP DigiPlug Stationary** uses the same circuit as the industry's most advanced power performance solution available: The **EP-2000**. The **EP DigiPlug Stationary** provides the innovative, patented EP circuit of the **EP-2000** in a convenient flush mounted socket to increase the lifespan and performance of high end home electronics. The EP DigiPlug Stationary will efficiently filter all power pollution threatening your equipment.

THE EP DIGIPLUG:

ABSORBS, DISSIPATES & REMOVES

- Transient voltage surges and spikes
- High frequency noise
- Ring waves

DOES NOT SHUNT ENERGY TO GROUND.

The facility ground is not relied on for performance or survivability.
